Movers App is a mobile application that allows users to find moving companies around their areas to help with their relocation.

- This was a collaboration project.My roles were
- ✓ Lead backend developer and also doubled as group leader for the most part
 - ✓ I created and managed our API and databases
 - ✓ I oversaw the work of other backend developers.
 - ✓ Intergration of our REST API to android frontend.
 - ✓ Design of frontend views.

Jamii Bora

October 16 2020 - November 7 2020
Node JS, Handlebars,Mongo Db

<https://github.com/DevSheila/JAMIIBORA>

Jamii Bora is a web application i developed .It is a platform that connects people in need of the basic items to those who can readily offer them.It also allows for community support services and crowd funding.

I built the front-end of application through appealing and responsive visual design and a robust backend.

- Features of the project include:
- ✓ Proper Authentucation and Authorization System.
 - ✓ URL routing configuration
 - ✓ Mailing services.
 - ✓ Chat application functionality
 - ✓ MVC Framework

Student Admissions Portal

September 22 2021 - October 22 2021
PHP,MySql
<https://github.com/DevSheila/studentAdmissions>

In collaboration with a classmate, we created a prototype student portal.

- Features of the project include:
- ✓ Proper Authentucation and Authorization System.
 - ✓ URL routing configuration
 - ✓ Mailing services.
 - ✓ Chat application functionality
 - ✓ MVC Framework
